

FORCELL

Forcell Offer

The Forcell brand has been created for millions of Europeans who love smartphones and want to use mobile devices in a comfortable and safe way.

There are no exceptions for us! We provide **the best mobile phone accessories at a reasonable price.** In our offer, you will find fast, traditional travel and car chargers & phone holders.

Our experts make sure that these accessories not only are safe and comfortable to use but also have their own unique design!

Forcell Carbon

- Your traveling companion

Forcell Carbon is a range of modern accessories with a carbon pattern that perfectly blends with the interior of any car.

When designing accessories from the Carbon range, our experts have taken inspiration from the futuristic pattern of carbon fiber and created products that are not only useful but also elegant and comfortable to use.

Forcell Carbon accessories are your reliable traveling companion. They guarantee safety and enable you to stay in constant contact with loved ones thanks to devices that are always charged.

By purchasing products from the Carbon range, you are choosing proven quality. From now on, they will reliably accompany you every day and for many years.

- maximum current strength **3.1A**

Charges 2 devices at a time

Compact design

Wall chargers
Quick Charge

Are you in a hurry? Need to go out and your phone battery has just a few percent?

Now there is a solution.

While traditional charging to several dozen percent takes about 2 hours, fast chargers shorten this time even to 30 minutes. This is a huge timesaver.

Moreover, when the charger is plugged into the power source, it consumes less electricity. You will save not only time but also money on lower bills.

Discover the other advantages of Forcell quick chargers!

Forcell

Travel Charger GaN 65W

- huge charging power up to 65W: **powers large devices**
- **modern GaN charging technology***
- multiport: 2x USB-C, USB
- **Power Delivery, Quick Charge 3.0** fast charging technologies
- charges 3 devices at once
- compact size

Charges smartphones, tablets, laptops

Small charger, great power

EAN 5903396116186

*Instead of standard silicon, GaN power adapters are based on gallium nitride which allows transmitting energy faster, and automatically leads to faster charging. Simultaneously, the nitride is a dozen times smaller than silicon, which makes devices substantially smaller than their traditional equivalents. GaN chargers are thus faster and smaller.

Power Delivery

Quick Charge 4.0

Wall chargers QC

Forcell

Travel Charger 25W

- **Power Delivery, Quick Charge 4.0** fast charging technologies
- supports **AFC function***
- charging **up to 25W**

The set includes a storage bag.

EAN 5903396072475

Power Delivery

Quick Charge 3.0

Travel Kit: works in 150 + countries!

Wall chargers

Charging with lower-power chargers does not lead to rapid heating of the battery, which ultimately has a positive effect on the device battery and its lifetime.

Charging takes longer, but is safer for the battery.

It is worth having two types of chargers close at hand: quick, when you need to power the device with energy immediately, and traditional, when the charging process may take longer.

See what else you can get by choosing Forcell wall chargers!

Forcell

Travel Charger Micro USB 2A

- **universal USB port:** fits most devices
- charging power **up to 10W**
- **built-in cable with a Micro USB connector (1.2 m)**
